[How To Install Remoteapp Manager Server 2008](#)

The screenshot displays the TS RemoteApp Manager interface. The main window is titled "TS RemoteApp Manager" and contains several sections:

- Overview:** Contains settings for Terminal Server, TS Gateway, Digital Signature, and RDP. It includes status indicators (info, warning, success) and links to "Change" settings.
- Distribution with TS Web Access:** Provides information about the TS Web Access Computers group and lists RemoteApp programs visible in TS Web Access. It includes a "More about using TS Web Access" link.
- Other Distribution Options:** Offers options to "Create .rdp File" or "Create Windows Installer Package", with a "More about distribution options" link.
- RemoteApp Programs:** A table listing configured programs.

Name	Path	TS Web Acce...	Arguments
Calculator	C:\Windows\System32\calc.exe	Yes	Disabled
